2. Step-by-Step Meta Ads Manager Setup

1 Open Meta Ads Manager & Create Campaign

1. Go to adsmanager.facebook.com on your computer.
2. Click the green **+ Create** button.
3. Choose **Sales** as the campaign objective (Do NOT choose Traffic or Engagement, as Sales gives real buying customers).
4. Choose **Manual Sales campaign** and click **Continue**.
5. Name your campaign: AST Macrame - Video Retail Campaign - [Month].

2 Ad Set Level Setup (Pixel & Audience)

A. Conversion Settings:

- **Conversion Location:** Select **Website**.
- **Pixel:** Select your **AST Macrame Pixel**.
- **Conversion Event:** Select **Purchase**.

 **Pro Tip on Pixel:** Since we already integrated the Pixel into your code, the Purchase event automatically triggers when a customer submits an order on your Retail page!

B. Budget & Schedule:

- Set Daily Budget to **\$5.00 to \$10.00** (or **₹ 600 to ₹ 1,200**).
- Set Start Time to **12:01 AM (Midnight)** so Meta spends budget evenly throughout the day.

C. Audience Targeting:

- **Location:** Bangladesh (Include all).
- **Age:** 20 – 45.
- **Detailed Targeting (Interests):** Keep it *Broad* OR test keywords: Online shopping, Fashion accessories, Denim, Casual wear.

4. Pre-Launch Verification Checklist

- ✅ **Install Meta Pixel Helper Extension:** Install Google Chrome's official *Meta Pixel Helper* extension to verify your pixel fires on page visits.
- ✅ **Test Live Checkout:** Open your retail page, click "Order Now", fill the form and submit a test order. Check that the Purchase event fires in Pixel Helper.
- ✅ **Mobile Responsiveness Check:** Ensure your retail page loads under 2 seconds on 4G mobile connections.
- ✅ **WhatsApp Quick Support Ready:** Keep WhatsApp active to answer custom size queries promptly.

5. Post-Launch Optimization Rules

Rule 1: Don't Touch the Ad for First 48 Hours

Meta's AI needs 48 hours to learn and find the cheapest buyers. Don't pause or edit budget during this learning phase.

Rule 2: How to Scale Budget

If your Cost Per Purchase is below ₳ 150 - ₳ 200 and you are getting steady orders, increase the daily budget by **20% every 3 days** (never double it instantly as it resets learning).

Rule 3: Courier Call Verification

Call every COD customer within 2 hours of order submission to confirm their address and size before shipping to keep return rate below 5%.
